

Dispenser Box with 4 Compartments

Item No.: 11003999

Ideal for use in cleanrooms, laboratories, pharmaceutical production and other hygiene-critical areas.

Technical Description

Dimensions: 600 x 150 x 600 mm (L x W x H)

Material:

Stainless steel – corrosion-resistant, durable and ideally suited for sensitive hygiene and cleanroom environments. Easy to clean, hygienic and designed for continuous daily use.

Four separate compartments

For clear, organized and segregated storage of various disposable items (e.g. caps, gloves, overshoes).

Hinged lid with robust stainless-steel bow handle

Enables ergonomic, quick and hygienic refilling (hole spacing 96 mm).

Front-mounted fill level indicator

Viewing slots allow quick stock control at a glance.

Four embossed, round dispensing openings (Ø 50 mm)

Ensure controlled, low-contact dispensing and help reduce contamination risks.

Removable drip tray

Positioned below the dispensing openings to collect falling items and simplify cleaning.

Prepared for wall mounting

Two rear mounting holes for secure and clean installation (supplied without mounting hardware).
